DE LA RECHERCHE SCIENTIFIQUE

Direction Générale de la Coopération Internationale

Offre de bourses d'études à l'Université de Malte au titre de l'année universitaire 2018-2019

Le Ministère de l'Enseignement Supérieur et de la Recherche Scientifique (Direction Générale de la Coopération Internationale) informe que le Ministère pour le Développement durable, l'Environnement et le Changement climatique de Malte offre 3 bourses d'études supérieures au titre de l'année universitaire 2018-2019.

Ces bourses concernent les domaines suivants:

- Mitigation of climate change and low carbon transportation;
- Adaptation to climate change to enhance resilience for the conservation of living marine resources;
- Climate change governance in the context of small island states and territories.

Les candidats sont tenus de soumettre leur candidature en ligne avant le **25 mai 2018**.

Toutes les informations concernant les bourses susmentionnées sont disponibles dans le document ci-joint et sur le site:

Scholarships in Climate Action offered by the Government of Malta for Postgraduate Studies at the University of Malta

The Scholarships in Climate Action are being offered as part of the Government of Malta's commitment under the Climate Finance Package to provide support for capacity building in developing States.

In order to be considered eligible, applicants should be Nationals and current residents of one of the countries indicated in the following list available at:
http://unfccc.int/parties_and_observers/parties/non_annex_i/items/2833.php

Three scholarships in postgraduate studies are being offered to students seeking to enrol in Postgraduate Studies at the University of Malta commencing in October 2018. Each scholarship will focus on one of the three key areas recognised as essential pathways for ensuring effective climate action on a national level.

These pathways are:

- Mitigation of climate change and low carbon transportation
- Adaptation to climate change to enhance resilience for the conservation of living marine resources
- Climate change governance in the context of small island states and territories
