**Objet: Programme de Stages Norman E. Borlaug pour l'année 2019**

**Pièces jointes : Appel à candidature (03 pages)**

Monsieur le Directeur,

J'ai le plaisir de vous faire parvenir, ci-dessous, les thèmes retenus par le Département Américain de l'Agriculture (USDA) pour le Programme Norman E. Borlaug pour l'année 2019:

1. *Biotechnologies (Biotechnology)*
2. *Sécurité Alimentaire (Food Safety)*
3. *Maladies Transfrontières des Animaux et des Plantes (Transboundary Pests and Diseases).*

Pour rappel, le programme Norman E. Borlaug pour les technologies et les sciences agricoles a pour objectif de promouvoir la sécurité alimentaire et la croissance économique en améliorant le savoir scientifique et la recherche. Ce programme permet aux chercheurs de bénéficier de dix à douze semaines de formation auprès d'universités et de laboratoires aux Etats-Unis d'Amérique, au contact de nouvelles techniques de recherches ainsi que des derniers développements scientifiques dans les différents domaines agricoles.

En vue de réaliser les interviews de sélection dans les meilleures conditions, je vous prie de transmettre le dossier aux candidats potentiels qui devront postuler directement en remplissant le formulaire de participation sous le lien suivant

<https://borlaug.fluidreview.com/> au plus tard le **31 décembre 2018**.

Pour plus de précision, prière de diriger les candidats vers cette adresse email:

## USDA Borlaug Fellowship Program for Tunisia

The United States Department of Agriculture (USDA) is pleased to announce the 2019 *Borlaug International Agricultural Science and Technology Fellowship Program* (Borlaug Fellowship Program) for Tunisia.

The Borlaug Fellowship Program promotes agricultural productivity, food security, and economic growth through collaborative research. The program offers training for agricultural research, leadership, and agricultural policy to university faculty, researchers, and government officials in Tunisia. Competitively selected Fellows will work one-on-one with a U.S. mentor who will coordinate the training program. After completion of the 10-12 week fellowship, the mentor will visit the Fellow's home institution to continue collaboration on the research topic. USDA will select U.S. host institutions and mentors for each fellow.

The 2019 Borlaug Fellowship Program is administered by the United States Department of Agriculture, Foreign Agricultural Service (FAS).

*The application deadline for the 2019 Borlaug Fellowship Program for Tunisia is December 31, 2018.*

### Objectives

- Provide early to mid-career agricultural economists, research scientists, faculty, and policymakers with one-on-one training opportunities in the fields of agricultural policy and research (see acceptable research areas below).
- Provide agricultural economists, research scientists, faculty, and policymakers with practical experience and exposure to novel perspectives and/or new technologies that can be applied in their home institutions.
- Foster collaboration and networking to improve agricultural productivity and trade.
- Facilitate the transfer of new economic, scientific, and agricultural technologies to strengthen agricultural practices.
- Address obstacles to the adoption of technology such as ineffectual policies and regulations.

### Research Topics:

- **Biotechnology:** To enhance researcher capacities to develop, promote, and defend the safe use of biotechnology in the promotion of global food security.
- **Food Safety:** To enhance public health through research of appropriate risk-based regulations that safeguard the food chain.
- **Transboundary Pests and Diseases:** To research the protection of agriculture from transboundary animal and plant pests and diseases.
